The Heritage Home Team is pleased to announce that we now offer property management services to our clients.

I discovered that, with the economy the way that it is, many people are choosing not to sell their homes when they relocate – to another area of the city or across the globe – when I was going out to discuss selling possibilities with my clients.

When I couldn't recommend a company to manage their home while they were away that I felt would provide the same amount of client service and support that The Heritage Home Team does I knew that there was a need for such service.

Property management is more than just collecting rent, phone calls and repairs. Our job is to make sure the property is maintained correctly – to avoid larger, more expensive repairs down the road; that the tenants are happy with their new home – so they will live there for months or years to come (and let you know if service items arise); and keep good accounting records of all income and expenses – for bookkeeping and tax purposes.

If you are considering hiring a property manager for your primary residence or for your investment property please give Crystal at call at 913-908-9801 for pricing and services provided.
